# WULFF'S STAMPS, INC.

Wulff's Stamps has one of the largest inventories of France and French-related stamp material within the United States. Whether a France collector wants to start a new collection, purchase supplies, find new issues, or look for that rare item to complete a collection, Wulff's Stamps can meet all their needs.

One of Wulff's Stamps' recent notable sales included this used example of this 1895 Madagascar 15-centime-on-1 franc stamp (Scott 22D).

## HISTORY

Leland and John Wulff were avid stamp collectors in the late 1980s. In early 1989, Leland came across a large United States stamp collection that was mostly complete with nearly all the stamps, including classics and valuable early stamps in XF or better condition all with certificates — a rare find. Leland provided John with a proposal to buy this collection and start their own stamp business together, and Wulff's Stamps was born. Wulff's Stamps had its first show in Sacramento in the summer of 1989. Wulff's Stamps continued to do shows throughout California and later established a shop to further serve its clients. With the passing of John in late 2015, Leland incorporated Wulff's Stamps, Inc. with Leland's wife, Tanya, joining as an officer. In 2020, Wulff's Stamps, Inc. moved to Las Vegas into an office to work up collections, fill orders and meet customers. Tanya is an integral part of the company. She processes collections, fills orders and communicates with customers.

## PRODUCTS & SERVICES

Wulff's Stamps specializes in stamps from the U.S., France, French Offices and pre-independent French colonies. The company is expanding its new issues service for France. These services provide the normal and specialized issues that can sell out quickly at competitive prices. Shipping is always free. The company spends a lot of time, effort and money to make sure its products are sound, or correctly described if not. It guarantees the stamps are not counterfeits or forgeries. Wulff's Stamps has direct access to experts in France, so the stamps are authenticated by experts' signatures and/or certificates.

## TECHNOLOGY & INNOVATION

Wulff's Stamps has had a website since 1999. However, its next big project/challenge is to redesign the site and include a shopping cart feature to make it easier for customers to shop at any time.

## GROWING THE HOBBY

Leland is a board member of the France and Colonies Philatelic Society. Wulff's Stamps participates in the local stamp club's show in Las Vegas. Wulff's Stamps provides some of the more difficult new issues from France and current colonies for inclusion in the Scott catalogs, as well as consulting on market trends and values.

# French Offices - Clandestine & Private Printings

In 1906, the postal administration discovered numerous errors in overprints sold on the philatelic market. This in theory was not possible. An investigation discovered there was a fraud organized by the printers of the 1904 and 1906 series. People would buy the normal stamps through the Postal Services and then give them to the printers who then used the same characters as the normal overprinted stamps, but made many varieties by printing the overprints backwards, double overprints, inverted overprints, on the wrong stamps and other "error" formats.

The investigation determined that everything was authentic; the stamps, overprint characters, machines used and even the number of stamps sold by the post office was correct, since the stock was parallel and not double counted.

This was a scandal at the time, but the justice department ruled against the post office because there was no monetary damage since the stamps used for the wrong overprints had all been purchased at the post office and therefore there was no financial loss. In the end, these are real stamps, but with voluntary errors.

Some of these examples are unique, others exist in multiples. There is not a complete listing of all the variations printed, however the Yvert & Tellier 2022 Edition of French Colonies and French Offices Abroad Catalog does do a pretty good job capturing a majority of these items and assigning a value to each stamp, typically 40€ to 55€ each. These are rarely offered in France or anywhere else. Below each item is listed with the assigned Yvert Catalog number (YT:), or a "v" next to the number for variety for the ones not specifically listed, and our selling price. \*\* - Never Hinged; \* - Hinged, (\*) -No Gum.
